

The CVP Automated Packaging Solution.

Revolutionize your packaging process with auto-boxing technology.

See how the CVP works to save you time and money.

Fit-to-size auto-boxing technology measures, constructs, tapes, weighs, and labels each parcel in one seamless process. It addresses key shipping industry challenges—from exponential increases in e-commerce orders to supply chain labor shortages and rising dimensional (DIM) weight charges.

One, Two, or Three Corrugate Feeders use agnostic fan-fold material for quick replenishment and reduced inventory.

Less Environmental Impact by replacing material usage and box size for a smaller carbon footprint.

Increase Productivity as single- or multi-item orders are scanned and custom boxes are configured every 7 seconds.

Reduce Labor Costs by eliminating 8 to 16 packing stations and ensuring smooth workflows even during peak production periods.

Customer Experience Notifications camera live streams customer's product being packaged for complete order visibility and less customer service calls.

Order Weight Verification optimizes rate shopping via an in-line scale, assuring accurate weight and measurements of each parcel.

Easy Open Box taped on 2 sides allows for easy open, recycling, or returns, improving the customer experience.

"With the CVP we can work smarter, while reducing packing, shipping, and seasonal labor costs."

Jeff Carter, Senior Vice President of Global Fulfillment at Backcountry.com

"Packaging is more efficient and cheaper. We don't need any filler materials to protect the product. And as the CVP packs much tighter around the product, we have less damage."

Richard Resen, CEO/Owner at The Label Collection

"We are looking at significant savings per package with the CVP."

Pat Sullivan, Distribution Center & Logistics Manager at Mason Companies

Single or Dual Infeed Stations to produce high-volume packing speeds.

Scanner Captures 3D Image of each unique parcel to determine the minimum box size required.

Optional Robotic Arm inserts invoice or promotional materials for greater efficiencies.

Reduce DIM Weight-dependent freight costs with the correct-sized box for every order.

Carrier Compliant Labels are created and applied to ensure accurate delivery.

Customer-Focused Service Solutions

Neopost offers 24/7 remote support, on-site scheduled service calls, and a dedicated OEM parts distribution center. We customize our plans to meet your needs.
